## CRUSHED TO DEATH AT END OF BATTLE AGAINST POLICEMEN

**Recluse Farmer Kills Constable Sent to Serve Summons—Trapped Behind Granary, Is Run Down and Killed by Police Car After Two-Hour Gun Fight**

CALGARY, Alta., April 26 (CP).—The short-lived shooting career of David Knox, recluse farmer, was brought to an end today when Constable R. C. Fenn, of the Royal Canadian Mounted Police, drove a speeding automobile towards the farmer and crushed him to death against a granary.

This new way of getting their man was devised by police as Knox, a pensioner who lost part of his left leg in the war, was holding off with rifle power officers attempting to arrest him after he had shot and killed Corporal Michael Moriarty, forty-eight-year-old R.C.M.P. veteran, who went to Knox's farm near Drumheller, Alta., to serve a summons.

Shooting of Corporal Moriarty recalled the death of Constable E. Millen, who was killed in the chase for Albert Johnson, the "mad trapper" of the Arctic, who also was slain by police in February, 1932. Two other constables were wounded in the tracking of Johnson, who was sought for interfering with trap lines.

**RUN DOWN BY CAR**  
Trapped behind a granary on a neighboring farm after he had battled a posse of police and farmers for two hours, Knox, with blood flowing from a pistol wound, was struck by the police car as he prepared to fire at Constable Fenn. The latter had surprised the farmer by shooting the car suddenly from behind a straw pile.

## MONEY MOTIVE FOR SHOOTING

**Sheriff's Captain Announces His Theory on Hollywood's Latest Tragedy**

HOLLYWOOD, April 26 (AP).—Sheriff's Captain William Bright announced tonight he was convinced the motive for Hollywood's strange triangular shooting which took the lives of two men and resulted in the possible fatal wounding of a third, was motivated by a quarrel over money.

**BOTH OWED MONEY**  
Bright said Paul Ivar, young gown designer for film stars, apparently had been slain by William McCauley Howard, his chauffeur. Bright said Howard then went to the home of Henry Bolte, a sociology instructor for whom he once worked as secretary, shot him and then ended his own life. Both Ivar and Bolte, Bright said, owed Howard money.

In announcing the possible motive for the slaying, wounding and suicide, Bright declared the Countess Rina de Liguoro, Italian film star and concert pianist, whose name was brought into the investigation when a telegram addressed to her was found in Ivar's apartment, had no connection with the tragedy.

**NO ARREST MADE**  
The countess was the recipient in 1933 of an extortion note threatening her life and that of her young daughter and demanding \$200,000. No arrests were ever made in the case.  
Ivar was shot at a dinner party in his apartment which was attended by Howard and a man identified as N. C. McDermitt, a sailor from the U.S.S. Pennsylvania. McDermitt fled the scene after the shooting and was being sought tonight to shed what light he could on the tragedy.

## CAVALRY SQUADS WILL ADD COLOR

**Will Ride in Full Uniform in Royal Jubilee Procession to St. Paul's Cathedral**

LONDON, April 26 (CP).—By the King's express command, squadrons of cavalry wearing full-dress uniforms will be included in the Royal Jubilee procession to St. Paul's on Jubilee Day.

The final programme has been submitted by the Lord Chamberlain for His Majesty's approval, and it is understood the King was so impressed by the spontaneous desire of his people to participate in the celebration that he decided the pomp and pageantry associated traditionally with Royal processions could not be omitted.

Numerous cavalry squadrons which will ride ahead of the King's escort of Life Guards include the Queen's Bays, Third Carabiniers, Inniskilling Dragoons, King's Own Hussars, Queen's Royal Lancers and Royal Horse Artillery.

## QUINTUPLETS DOING WELL

**Hundred and Fifty Thousand Dollar Estate Now to Their Credit**

NORTH BAY, Ont., April 26 (CP).—An estate valued at \$151,187.29 has been accumulated for the Dionne quintuplets in the period July 26, 1934, to March 31, 1935. This figure was revealed today in the surrogate court of the district of Nipissing by H. R. Valin, solicitor for the former guardians of the five little sisters.

The accounts are scheduled to come before Judge T. F. Battle for passing April 30. They cover all business transacted for the quintuplets by W. A. Alderson, G. K. Morrison and Olivia Dionne, the former guardians.

**THE ASSETS**  
Tabulated, the estate consists of contracts valued at \$114,750; cash in bank, \$15,728; Dafoe Hospital, \$9,112; Province of Ontario bond, \$10,000; gifts, \$1,596.

Gifts, varying from five extinguishers to frying pans, were sent to the famous babies during the period in which the now retired guardians held sway. In addition to this the hospital was built and equipped by moneys and donations obtained through the efforts of the guardians. Contracts which are still due will bring in \$114,750. For his services covering the period from the babies' birth until the end of April, Dr. A. R. Dafoe was paid \$2,300.

## WILL COMPLETE HEARING TODAY

**Prosecution in Vancouver Conspiracy Case Runs Out of Witnesses**

VANCOUVER, April 26 (CP).—Preliminary hearing of former Chief Constable John Cameron and six others, on charges of conspiracy, adjourned today until tomorrow, when it was expected evidence will be completed, but a decision on commitment or acquittal will probably be postponed for several days.

Magistrate Mackenzie Matheson, hearing the case in police court, declared today he would not rush counsel or himself, in considering the mass of evidence which has been submitted. Previously several defence counsel demanded transcripts of evidence before making argument. Gordon Wismer, representing Joe Alvaro and Eugene Valenti, two of the accused, declaring that the case had produced the "slimmest evidence I ever heard in court."

Charged with Cameron, Alvaro and Valenti are Joe Celona, Lou Barrack, Joe Swartz and Wally Cole.

**RUNS OUT OF WITNESSES**  
Today's hearing was adjourned when the prosecution ran out of witnesses.

J. D. McPhee, representing Barrack, said he would like to know how many more witnesses the prosecution proposed to bring in.

"Are you waiting for the overnight entries?" he asked.

## Strike Situation Is Unchanged as Many Proposals Rejected

**Tuesday Last Day for Filing Tax Returns Without Penalty**

THE last day for filing Dominion income tax returns without penalty is Tuesday, April 30. It is suggested, however, that taxpayers will save themselves considerable inconvenience if they will file returns before that date, as on the last day there is always unavoidable delay owing to the number of persons who leave the filing of returns over until the last minute.

In order to accommodate taxpayers the local office will be open today until 5 p.m., and on Monday and Tuesday until 6 p.m.

Under the budget proposals in respect to 1934 income tax payments, the rates of tax for individuals are unchanged up to \$5,000. A surtax, however, is imposed on all investment income exceeding \$5,000, surtax rates commencing at 2 per cent and running up to 10 per cent. In respect to 1934 corporation income tax returns, the rate of tax has been increased to 13 1/2 per cent of the net income in lieu of 12 1/2 per cent as heretofore. Consolidated corporation income tax returns are assessed a tax of 15 per cent.

## BRINGS PROTEST FROM HOLY SEE

**Papal Nuncio Visits German Under-Secretary of State on Return From Rome**

BERLIN, April 26 (CP-Havas).—Though no official announcement was forthcoming, Monsignor Cesar Orsenigo, the Papal nuncio, visited the Wilhelmstrasse today to confer with Bernard W. von Buelow, Under-Secretary of State, and it was understood he conveyed a protest from the Holy See against the growth of anti-Christian and pagan sentiment in Germany. Monsignor Orsenigo has just returned from Rome.

He was said to have protested particularly against the arrest and imprisonment of several Catholic priests, among them the Papal prelate, Wilhelm Leffers, and the support given by the Nazi authorities to Prof. Wilhelm Bauer's pagan German faith and anti-Christian movement.

## Seeks Owner of Keys Dropped in Backyard by Crow

J. McAllister's pet crow, which was destroyed early in the week for pecking at a baby's head on Langford Street, was also a kleptomaniac.

The day before it was killed the crow flew over the yard of a Victoria West resident and dropped a bunch of keys. Several residents of the district claimed they lost keys by thieving activities of the crow, but those found were not theirs.

The resident is desirous of returning the bunch, which included several Yale keys, and the owner may have them by telephoning Garden 2920.

## WHITE BEAR TO BE FILM TOPIC

**Ursus Kermodei Will Be Featured in Wild Animal Picture**

Victoria's Ursus Kermodei, the only white bear in captivity, will be the feature of a wild animal motion picture film to be taken on this coast by William Dean Sweet, well-known camera hunter of New York. Alderman John Worthington, chairman of the parks committee, announced yesterday.

Mr. Sweet proposes to take many "shots" of Ursus in a setting closely resembling its native haunts. The parks board of the city will co-operate to make the filming a success.

After taking pictures here, Mr. Sweet will go to Princess Royal Island to film timber wolves in their native haunts, and, if possible, secure film footage of the Ursus Kermodei type of bear, also in their natural state.

## Caddy Seen Near Quatsino Harbor

QUATSINO, April 26.—Victoria's famous "Caddy" was seen here a few days ago by the MacMillan family of Koprino Harbor, and by some of the men from Harvey Hansen's camp, also of Koprino.

Mr. MacMillan stated that it was about thirty feet long, with two distinct humps.

## ORDER FOR SUBMARINE FLEET LATEST VIOLATION OF TREATY

**Duke's Estate at Cowichan Sold to Vancouver Buyer**

SALE of the Duke of Sutherland's estate at Cowichan to a Vancouver purchaser was announced by F. B. Pemberton & Son, which firm conducted the negotiations. The property, purchased by the late Duke of Sutherland, has a beautiful shooting lodge erected upon it. During his life, the father of the present Duke of Sutherland frequently visited his vacation home on Vancouver Island.

## TAX ARREARS RECEIPTS UP

**Big Gain Is Made in Collections Despite Substantial Increase in 1934**

An increase of \$11,062 in the collection of tax arrears this year over the same period last year was reported by treasury department officials yesterday. The figures are for the period up to April 25.

A total of \$57,388.26 was collected up to the close of business Thursday, as against \$46,326.20 for the same period in 1934.

Considerable encouragement is taken from this gain by civic officials, inasmuch as the 1934 collections showed a substantial increase over those of 1933.

"It is but another indication of restored confidence in the city, and another barometer of improved conditions," Alderman P. R. Brown, former chairman of the finance committee, stated.

Taxes collected under the prepaid scheme amounted to \$428,591 on Thursday, as compared with \$370,532 for the same period last year.

## Rescued Brother And Housekeeper

BAGOT, Man., April 26 (CP).—Frank Danksreiter was a badly singed hero tonight. When his house caught fire during the night, he received bad burns in carrying his unconscious brother to safety. He then went back into the flames to rescue his housekeeper.

## CAUSE OF SALEM FIRE IS MYSTERY

**Incendiarism Suspected in Destruction of Oregon State Capital Buildings**

SALEM, Ore., April 26 (AP).—Cause of the disastrous fire which demolished the historic Oregon capitol, with a loss of \$1,500,000, remained a mystery tonight.

Pursuing a theory of incendiarism, state police—this afternoon questioned and then released a man who came to Salem recently and had been seen around the capitol the past few days.

On three occasions in recent years small fires have started in the statehouse basement, but have been extinguished quickly.

## Royalists of Greece Expecting Monarchy To Be Restored Soon

**Former King Confers With Followers in Paris When on Way to England—May Return After Elections in May**

PARIS, April 26.—A few short weeks, jubilant Greek royalists said here tonight, will see ex-King George II back on the throne he lost twelve years ago. The former monarch of the Hellenes passed through Paris en route to London and heard Royalists explain their plans to restore him, if monarchists score the victory they expect in Greece's elections May 19.

Lending still more substance to the Royalists' hopes was the explanation which Nicolas Politis, Greek Minister to France, gave the French Government after King George departed for London.

A distinct possibility exists, that the King will be recalled after the May elections, Politis asserted, although no coup d'etat is contemplated and any restoration must be voted by the Assembly.

London Newspapers Report Immediate Construction Being Undertaken by Germany—Asserted That Twelve Being Laid Down at Once for Coast Defence—Larger Vessels to Follow

## France and Russia Agree on Mutual Assistance Pact

LONDON, April 27 (AP).—Two leading London newspapers said simultaneously today Germany has torn up another section of the Versailles Treaty by ordering the immediate construction of a fleet of small submarines.

Statements that Germany had violated the ban on submarines imposed upon her by the Allies were made by the diplomatic correspondents here on both The News-Chronicle and The Herald, which indicated full confidence in their source or sources of information.

Following close upon the recent publication of a mass of information purporting to show Germany's air force is twice as strong as that of Great Britain in the United Kingdom, the allegations provide new fuel for the arms debate in Parliament next Thursday.

Overstepping of naval limits of the treaty by Germany was generally expected here, even before Germany's demand for naval expansion could be discussed by Britain, France and Italy.

**A NATURAL SEQUEL**  
This was regarded as a natural sequel to Hitler's army conscription act and had announcement that Germany possesses a military air force, contrary to the treaty.

Both The News-Chronicle and The Herald said Germany is beginning by building small submarines. The former asserted that twelve underwater craft of 250-tons each are being laid down immediately.

"Orders have been placed with German shipbuilding firms for the construction of a number of submarines," asserted The Herald.

**BREAKING EVERY CLAUSE**  
The submarines, said The Herald, are to be used for "coast defence" purposes, and the "next batch will consist of larger, ocean-going boats."

If Adolf Hitler has ordered the construction of submarines he will

## GAS IN SEWER FATAL TO TWO

**Eight Others in Critical Condition Following Explosion—Two Are Arrested**

ST. LOUIS, April 26 (AP).—Two laborers were fatally burned and eight others were in critical condition as a result of an explosion and fire that trapped more than a dozen men working in a sewer near the Grand Boulevard Viaduct industrial district here today.

Following the death tonight of William Maloney, fifty-four, and James Hollen, twenty-four, authorities announced they had taken custody two men who, police said, were involved in pumping into the sewer 1,500 gallons of a mixture of fuel oil and gasoline.

The men held were Sidney H. Dubinsky, twenty-nine, secretary and treasurer of Sid's Petroleum Corporation, and Frank Mischbach, twenty-seven, chauffeur for Dubinsky's firm.

**PUMPED INTO SEWER**  
Police said Mischbach told them he was ordered to pump the oil and gasoline into the sewer after he had mistakenly placed the gasoline in an underground tank containing fuel oil.

The sewer was enveloped in flame as a discarded match ignited oil that had seeped into the chamber. Two muffled explosions followed the fire and hurled manhole covers from their seats over a mile radius. Windows in the neighborhood were shattered.

Confusion broke out in the sewer as the crew of thirteen laborers, trapped by the flames and smoke, tried to reach the exit.

## PREMIER TO BE GUEST OF KING

LONDON, April 26 (CP).—His Majesty has invited Prime Minister R. B. Bennett to be a week-end guest at Windsor Castle. Mr. Bennett will go to the castle tomorrow. Upon his return to London early next week, Mr. Bennett will meet Prime Minister Ramsay MacDonald. A representative of Prime Minister MacDonald welcomed Premier R. B. Bennett on his arrival at Paddington Station from Plymouth this afternoon. Mr. Bennett shook hands with a small party of Canadians who had also come out to greet him, and remarked that he seemed all the better for his voyage, and left forthwith for Clarendon Hotel.

## NO SUPPORT IS RECEIVED FOR TRUANTS

Parent-Teacher Body Con-  
demns Proposed "Strike"  
Of School Children

### PROVINCIAL BODY ELECTS OFFICERS

VANCOUVER, April 26 (CP).—The British Columbia Parent-Teacher Federation today wound up its annual conference with a discussion of the national convention to be held here in July, adopted a forty-five-clause report on suggested policies for the national body, and elected provincial officers.

During today's sessions delegates refused to support a proposed strike of high school students in sympathy with relief camp strikers, but re-endorsed the conference's stand asking the Dominion Government to abolish relief camps and to "institute a programme of public works much more ambitious than that which has been announced from Ottawa."

Request of a youth, who claimed to represent high school students, for sponsorship of the P.T.A. of the proposed strike, was refused and the proposal condemned. The youth said he left high school three years ago.

## BROKE HER LEG AGAINST A STAIR

Whist Hampered by  
Rheumatism

"Two years ago," writes a woman, "I was suffering with rheumatism in my legs, and when walking upstairs one day just kicked my right foot against the stairs, and broke my leg just below the knee. I was in hospital for four months, and when I came out someone advised me to try Kruschen Salts. I did so and now I have no trace of rheumatism. I would not be without my daily dose of Kruschen, which I take every morning—half a teaspoonful in warm water."—Mrs. P.B.

The six salts in Kruschen stimulate the liver and kidneys to healthy, regular action, assist them to get rid of the excess uric acid which is the cause of rheumatic pains. When poisonous uric acid goes—with its deposits of needle-pointed crystals—there's no doubt about those aches and pains going too!

## HIGH TAXES CRITICIZED

Hudson's Bay Company Re-  
ports Increase in Net  
Profit Last Year

LONDON, April 26 (CP).—Six dissentient critics at the annual meeting of the Hudson's Bay Company, spoke of confiscatory Canadian taxation.

The governor pointing out the company had brought case after case of appeal against undue taxation, thereby reducing the total impost considerably, suggested this procedure was far more effective than approaching the Canadian Government, which was far from being the only Government in the world taxing people heavily.

The meeting was comparatively small. One critic suggested the governor might have approached the Canadian Government with respect to taxation, on his recent tour, rather than "stunting with Eskimos with his Scottish piper."

#### SUPPORTS GOVERNOR

Another shareholder said he had known the governor for many years, and if anyone thought he would pay a man \$1,000 if he were worth only \$500, they were vastly mistaken.

Increased collection of furs, improved trading and the posts, and "greater efficiency within the stores," enabled the Hudson's Bay Company to increase its net profit in 1934 by \$58,305. Net profit for 1933 was \$139,452, and for 1934, \$198,757.

In his report to the shareholders at the annual general court, P. Ashley Cooper, governor, declared there would be no dividend. The last company dividend was in June, 1930.

Grave and perplexing problems in Canada awaited solution and needed a vigorous attack, he said.

#### FORSEES PROGRESS

"At the same time one cannot but realize Canada has a vitality and elasticity which are of enormous importance and value, and, provided the world in general is not faced with any more serious upheavals, I have great hopes Canada will move steadily forward."

The fur trade department reported greater collections of furs during the year and increased trading, but, owing to exchange and import restrictions the fur sales had been unsatisfactory. The company had decided to extend the maintenance of beaver preserves and would develop its own fur farms.

#### GREATER EFFICIENCY

The retail stores department showed an increased profit "largely due to greater efficiency within the stores organization," said the re-

port. Praise was given the work of F. F. Martin, general manager of that department, appointed during the year.

The company's land department had produced a small surplus after several years of losses, and the governor expressed pleasure at the farmers' real effort to pay their debts.

Of the company as a whole Mr. Cooper said progress had not been as rapid as he would have liked. "Unfortunately our trading outlook continues obscure, but unless conditions deteriorate, I feel confident that next year we will be able to report still further progress."

## ORDER SUBMARINES IN SPITE OF TREATY

Continued from Page 1

have broken every military clause of the Treaty of Versailles.

These were divided into military, naval and air clauses. Der Fuehrer last month announced to the world Germany would reinstitute army conscription and would inaugurate a military air force.

Submarines are strictly forbidden to Germany in the post-war treaty. Her navy also was rigidly limited to one purely for coast defence.

#### SMOOTH ROUGH SPOTS

PARIS, April 26 (AP).—France and Russia today smoothed out the last rough spots in their proposed mutual military assistance pact, and tonight it was confidently expected the agreement would be initiated tomorrow morning.

A seventy-five minute conference between Foreign Minister Pierre Laval of France and Ambassador Vladimir Potemkin of Russia at the Quai d'Orsay sufficed to reconcile conflicting views as to the text of the treaty.

#### AGREEMENT REACHED

Afterward, Potemkin, announcing an agreement had been reached, said the convention would be put into final form tonight and he would return to the Quai d'Orsay in the morning "with the experts."

A virtual military alliance linking the two pre-war allies, the new agreement promises France the help of Russia's huge Red army and Russia the aid of France's troops in the event that either is attacked.

The pact would come into effect, it is understood, in the event of "flagrant aggression," the League of Nations council being simultaneously called into hurried sessions to take the situation in hand.

#### MAY BE A JOKE

A possible joker in the pact was seen in the addition to it, on the insistence of France, of provision that neither nation would be "obliged to take action contrary to previous pledges."

Thus, under the Locarno Treaty, which binds Germany, France, Britain and Italy, either of the latter two nations could veto any French attack on Germany in support of Russia (assuming Germany attacked Russia), on the grounds that France thereby would become an aggressor under their treaty.

In addition to difficulties of squaring the pact with the Locarno convention, and obligations under the League of Nations covenant, the French Government was beset by fiery Nationalists who demanded the routing out of Communist propaganda as the price of signing the treaty.

It was said on good authority tonight that Russia agreed to "muzzle" revolutionary propaganda in France in accordance with demands made by Laval.

THIRTY-FOUR POLICE

CROWLAND, Ont., April 26 (CP).

The first break in the ranks of Crowland relief strikers came this afternoon when Adam Wakunick took up a spade and went to work in the sewer ditch project, while thirty-four police stood guard about him.

## Spring Flower Show Held at Willows Is Outstanding Affair

Vancouver Island Horticultural Association Spon-  
sors Display of What Southern Vancouver Is-  
land Can Produce in Flowers and Plants

IN spite of Spring flowers being approximately three weeks delayed through the brief cold spell of last Winter, the Vancouver Island Horticultural Association Spring Flower Festival at the Willows was thronged with visitors all yesterday afternoon and evening. Judging from comments, the display more than came up to their expectations.

P. R. Leighton, secretary, and E. M. Whyte, a vice-president of the association, pointed out that the exhibition is an outstanding one when it is considered that daffodils are practically over and tulips not quite in season.

In declaring the show officially open at 3:15 o'clock in the afternoon, Hon. Dr. K. C. MacDonald, Provincial Minister of Agriculture, asserted no part of British Columbia was so favorable to floriculture as the lower end of Vancouver Island. He was glad to see that the Horse Show Building afforded so much room for the exhibits.

#### LAUDS DISPLAY

"The Department of Agriculture is deeply interested in your work, particularly bulb culture, which undoubtedly will become an important branch of agriculture on the island," stated Dr. MacDonald. "I sincerely trust your annual show will help to shower honors on British Columbia for its incomparable flowers and shrubs. I also hope that in future years you will maintain the high standard of your flower shows," he concluded. Mr. Whyte moved a hearty vote of thanks to the Minister.

Among new botanical curiosities at the show is a hybrid Eriogonum, a delicate white and mauve flower. It is the result of experiments of Dr. C. T. Hilton, of Port Alberni, in crossing an Easter lily with a cultivated Henderson lily. Dr. W. P. Walker exhibited a yellowish-white seedling daffodil with an extremely large bloom. It is believed to be the beginning of an entirely new variety.

Other interesting plants, designed for rock gardens, include Japanese dwarf rhododendrons, Alpine buttercups, Japanese dwarf primulas, Alpine campanulas, and many other specimens dear to the heart of the rock gardener.

ROCK GARDEN SHOWN

Victoria branch of the American Rock Garden Society has a complete rock garden with a background of conifers. It is tastefully constructed with two mirror-like pools and planted with both native and foreign plants. The Beacon Hill Park nursery has a display of deep red auriculas and bright-hued nasturtiums around the platform. Among the curiosities from Rockhome Gardens is Meconopsis Bailey, or blue

# Health Insurance and Medical Data to Be Job for Commission

Decision Favoring Such Appointment Made Definitively at Closing Session of Ottawa Conference — Ministers Form "Cabinet of Health"

OTTAWA, April 26 (CP).—A Royal Commission on which there will be representation from various medical and nursing associations, labor, financial and insurance interests next Fall, will investigate the whole field of Canada's medical services with a view to acquiring data on State medicine and health insurance. This emerged definitely from the conference on public health, which, under the chairmanship of Hon. D. M. Sutherland, Minister of National Health, closed today.

The conferees were the Public Health Ministers of the provinces, the only absentee being Quebec. The members were Hon. F. R. Davis, Nova Scotia; Premier J. P. McMillan, Prince Edward Island; Hon. J. A. Faulkner, Ontario; Hon. R. A. Hoey, Manitoba; Hon. J. M. Uhrich, Saskatchewan; Hon. George Hoadley, Alberta; and Hon. G. M. Weir, British Columbia. Also in attendance was Dr. T. C. Routley, secretary of the Canadian Medical Association, and Dr. W. Warwick, deputy Minister of Health for New Brunswick. Dr. Warwick represented his province in the absence, through illness, of Hon. H. I. Taylor, his minister.

## SURVEY VAST FIELD

The vast field of public health in all its complex ramifications was surveyed during the two days. At the suggestion of Mr. Hoadley, the minister's constituted themselves a "Cabinet of Health," pledged to work in closest co-operation and to enlist the aid of the best medical brains of the country.

The conference discussed the common interests of all the provinces, keeping directly in front of it the general good of the Canadian people.

During its sessions the conference was addressed on the problem of tuberculosis among the Indians by Hon. T. G. Murphy, Minister of the Interior, and Dr. H. W. McGill, Deputy Minister of Indian Affairs.

## NARCOTICS IN CANADA

The narcotic situation in Canada was outlined by Col. G. H. L. Sharnman, director of that section in the National Health Department, while suggestions to obtain uniformity of Provincial statistics on hospital matters were presented by J. H. Brady, of the Dominion bureau.

Throughout its deliberations the conference turned time and again to the matter of cancer, and the necessity of educating the public to the need of consulting their physicians regularly in order that any ailment might be detected early and eradicated.

Each province concurred in the suggestion that its Public Health Department, by obtaining the services of technical men, create a "clearing house for health," in the way of accumulating and distributing data to the public.

## SUPERANNUATION PROPOSAL MADE

Expense of Actuary to Be Defrayed by Assessment Against Employees and Employer

For the purposes of defraying the expense of employing an actuary to determine a sound basis upon which to establish the superannuation fund of municipal employees, an assessment for the cost against employees and employers is proposed by a special committee of the Union of B.C. Municipalities.

In a letter received by the city clerk yesterday, it was stated that an assessment of one dollar on all those contributing to the superannuation fund, and a dollar on the employer for each contributor to the fund, is proposed to pay the expenses.

Nothing definite has been done yet with respect to the engaging of an actuary.

## Cowichan District Secures Award in Flower Exhibition

COWICHAN Horticultural Society took first place yesterday in the district display class at the Vancouver Island Horticultural Association Spring Flower Festival at the Willows. Metchoin Horticultural Society was awarded second prize, and Victoria Horticultural Society, third.

Royal Oak Women's Institute was awarded first prize in Women's Institute display class, Victoria Women's Institute, second, and Happy Valley Women's Institute, third. North and South Saanich Horticultural Society captured the landscape display prize, with no other competition.

vagrancy after they had interviewed the mayor following Tuesday's rioting, were dismissed by Police Magistrate H. S. Wood today. Nine other strikers are held on various charges of assault and malicious damage to property.

## PRESENTS SUGGESTIONS

A delegation claiming to represent seventy-two organized women's clubs in Vancouver visited Mr. McGee, presenting proposals which the mayor endorsed and forwarded to acting Prime Minister Sir George Perley.

They asked that temporary assistance be given the relief strikers pending an adjustment of the dispute and that the Dominion Government exercise its powers in such a way that the men will be absorbed back into "normal community life in a definite period of time."

Arthur Evans, one of the strike leaders, has stated labor unions have been invited to participate in a general "sympathy" strike from 3 to 4 p.m. Monday. The Vancouver and District Waterfront Workers' Association has decided that its 900 members will cease work during this hour in sympathy with the demands of the strikers. Other unions will meet to consider the invitation.

## MINISTERS IN SUPPORT

Members of the executive of the General Ministerial Association of Greater Vancouver have passed a resolution as being in sympathy with the strikers. They have sent a telegram to Dominion authorities asking that the men be cared for pending the findings of the Royal Commission now investigating camp conditions.

"The belated appointment of the commission, three months after the first strike, has aggravated this situation and temporary provision here in Vancouver is immediately imperative to allay fears and satisfy human needs," the telegram stated.

## WORK AND WAGES

OTTAWA, April 26 (CP).—Establishment of a work and wages policy as demanded by the striking relief camp workers in British Columbia "is a task quite beyond the power of the people of Canada to support," Rt. Hon. Sir George Perley, acting Prime Minister, declared today. He had received numerous telegrams from people in British Columbia, including a further message from Mayor G. G. McGee of Vancouver, urging that steps be taken at once to furnish work and wages.

While declaring the Vancouver riots had been incited by organized agitators, Mayor McGee expressed the belief a system should be adopted at a Dominion-Provincial conference to be called immediately, whereby the unemployed would be absorbed in industry.

Sir George Perley today issued the following general statement covering the relief camp situation with particular reference to the happenings in British Columbia.

## ISSUES STATEMENT

"In consequence of the disturbances taking place in British Columbia and particularly in Vancouver, telegrams are being received from many responsible citizens advocating that a 'work and wages' policy be introduced in replacement of the relief camp system for the care of single homeless men. It is evident that there is no clear appreciation of what is involved in a 'work and wages' policy, and it seems that some pronouncement on this matter by the Dominion Government is required if the existing misapprehension and misunderstanding is to be cleared up.

"It is not possible to introduce a 'work and wages' policy in one province alone; it is not possible to restrict a 'work and wages' policy to the persons now in the relief camps. Its introduction would result in the drawing in of many thousands of citizens who, at present, are not on relief. Once started, a policy of 'work and wages' under a Dominion Government programme would grow into a task quite beyond the power of the people of Canada to support. It might result in compromising the orderly revival of industry, which, at present, is progressing hopefully.

## MUST BE DEFINITE LIMIT

"To promote the revival of industry and to stimulate business the Dominion Government has undertaken works programmes for the construction of necessary Dominion public works, but there is a definite limit beyond which these programmes could not be carried without imposing an intolerable burden on the citizens and taxpayers. Every undue burden of this character which is assumed lessens the rate at which recovery will take place.

"It is important that the citizens of the Dominion should be informed that the disturbances in Vancouver are part of a carefully staged demonstration by Communist and subversive organizations who seek to

## Dardanelles Campaign Observed on Anzac Day

Imperial, Australian and New Zealand Forces Won Imperishable Fame in Hand-to-Hand Fighting at Gallipoli, Suffering Heavy Losses

Even as Canadians commemorate Ypres, Vimy and other major engagements of the late war, Australia and New Zealand this month join in the twentieth observance of Anzac Day, perpetuating the memory of one of the severest tests of the Allied cause, the landing on the beach at Gallipoli under a grueling Turkish fire.

At Helles, at West Beach, and at other points, Australian and New Zealand forces, together with Imperial forces, wrote a new chapter in the traditional courage of British arms.

Leave to military tacticians the oft-told arguments for and against the Gallipoli campaign, with its tragic loss of life and the subsequent abandonment of positions won at the point of the bayonet against tremendous odds. Of the courage and devotion of naval and military arms taking part in the historic engagement there has never been the slightest question.

## VICTORIANS SERVED

Taken from the diary of an artillery member of the 29th Division of Imperials, who landed on the beach with field guns in support of the hard-pressed infantry, the following notes serve to bring to the surface something of the contribution of the Imperials and Anzacs at Gallipoli to the Allied cause.

A veteran of the South African War, the owner of the diary landed with the first guns at Helles, and saw hand-to-hand fighting for several days. He is now resident in Victoria, as are many others who saw service in the same engagement.

Concentration commenced at the Island of Lemnos for the Dardanelles campaign on April 15, 1915. On

fundamentally alter and destroy the existing basis of authority.

"In establishing camps for the care of single homeless men these fundamental considerations have been uppermost in the mind of the Government which has sought to care for these men, to house them reasonably, to clothe and feed them adequately, and to deal with them sympathetically and without compulsion so that they might again, at the first opportunity, resume their places in the ordinary economic life of the country. The fact that over 22,000 have already been returned from Dominion Government relief camps to definite positions in industry shows that this policy has already had a positive measure of success.

ANGUS — Funeral services for Thomas F. Angus will be held in Hayward's B.C. Funeral Chapel this afternoon at 2:30 o'clock, Rev. Dr. E. A. Henry officiating. Interment will be in Royal Oak Burial Park. Members of the Britannia Branch, Canadian Legion, are requested to attend.

## RECEIVE ANSWER TO PROTEST REGARDING RADIO BROADCASTING

In answer to a telegram sent to Hon. Alfred Durand, Minister of Marine, at Ottawa, protesting because the Canadian basketball finals were not being broadcast on a Canada-wide radio network, the Victoria Junior Chamber of Commerce received a wire yesterday. It was written by B. Armand, secretary to Mr. Durand, and read:

"The question of broadcasting the championship basketball series was referred to the Canadian Radio Commission. The matter will be submitted to Hon. Alfred Durand on his return from voyage."

Officials of the Junior Chamber of Commerce had no comment to make last night regarding the telegram.

## VICTORIA HAS NO REASON TO FEEL GLOOMY

W. T. Straith Shows Enviable Position in Which City Stands Financially

HOME SEEKERS FIND GOOD INVESTMENT

In an address to members of the Real Estate Board yesterday, W. T. Straith, president of the Chamber of Commerce, presented a very bright outlook for the city of Victoria. He expressed the opinion that in the city there was a disposition to take too gloomy a view of the situation owing to the general depression. Dealing with the city finances, the speaker showed that when compared with cities of similar population throughout the Dominion, Victoria ranked low in taxation. The city was well governed under Mayor Leeming and the aldermanic board and the city was rapidly paying off its mortgaged indebtedness.

Quoting from Thomas Bradshaw, of Toronto, who had looked into the position of affairs here, and, said the speaker, he knew his subject. The city had every reason to feel proud of the situation. Mr. Bradshaw said Victoria and Mayor Leeming had refrained from doing the things that should not be done, and had not left undone the things required in order to bring about right conditions.

## WIPING OUT DEBTS

Dealing with the reduction of indebtedness, Mr. Straith showed that this year, 1935, Victoria would pay off \$308,293, which would cut off annual interest and sinking fund requirements of \$20,179. In 1936 there would be another reduction in indebtedness of \$256,215 with a saving in interest and sinking funds annually of \$16,900. In 1937 there would be a reduction of \$442,700 with the annual charges reduced by \$28,652. In 1938 the reduction in indebtedness would be \$365,000 with interest saving of \$25,458. In 1939 there would be no bonded indebtedness coming due, but in 1940 the reduction would be \$227,760 with an annual payment reduced by \$12,928.

In the five-year period there would thus be a reduction of indebtedness of \$1,599,968, which would effect an annual saving, by way of sinking fund and interest, of \$104,121. This would represent a saving of 2-1-2 mills in the taxes.

For the next ten-year period there would be a reduction of indebtedness of \$1,390,000, representing a saving in annual payments of \$119,872. Therefore at the end of the ten-year period there would be a grand total of \$3,000,000 reduction in debt with the annual payments for sinking funds and interest cut by \$224,000.

## OTHER SAVINGS

The situation financially, said the speaker, could not look better. In addition to this, there was the hope that before long the unemployment situation would ease and a charge annually of \$149,000 would be saved. The assurance of Hon. John Hart that next year relief would be afforded in social service expenditures, which had been pressing on the municipalities, was mentioned.

Mr. Straith pointed out that in the next five years the school debts would be practically paid off. The schools were not overcrowded and the prospect was that there would be no immediate requirements for new school buildings.

In the matter of water supply the system was adequate for many years to come. The streets were in good shape and the only major requirement that might present itself was the widening of the street connections with Oak Bay. In view of the fact that this was a matter in which the residents of the municipality of Oak Bay were benefited, it might reasonably be expected that something in the way of a compromise might be offered by Oak Bay in this line.

## INDUCEMENTS TO BUILD

The city was in the position of being able to say to the prospective home builder that all services necessary were already in place. This was not the position in most of the surrounding municipalities, where additional charges would follow for services in the line of water mains and streets. The result was that every house built in Victoria became an asset to the municipality.

In addition to this, when compared with other surrounding municipalities, the city had a large metropolitan area, which paid heavy taxation and also contributed large sums to the city. The home builder in the city was thus relieved of taxation to that extent.

In concluding, Mr. Straith made an appeal for energetic work in making the city attractive to the tourist and also the home seeker. It should be a city attractive the year round and not for a few weeks only.

In seeking new settlers, it was but natural to look to the Canadian Prairies and Eastern Canada in particular. He urged citizens to have a cheerful outlook, rather than one of gloom.

## CHURCH AFFAIRS IN GERMANY

Church affairs in Germany have reached a very acute stage. On March 9 the Confessional Synod, which is the opposition movement in the State Church that withdrew from the dictatorial rule of Reichsbishop Müller, issued a manifesto which set forth the spiritual character of the Christian Church and its claim for liberty within the State. It challenged the racial and nationalist creed of "blood and race and soil." It found a deadly danger to German life in the neo-paganism which would "put faith in an eternal Germany" in the place of faith in "an eternal rule of Christ." It denounced that neo-paganism as a "fool's faith" and superstition. This deliverance, which was designed to be read from all the Confessional pulpits, went on to acknowledge a limited authority only for the State and then asserted in clear-cut sentences that the "church dare not bow blindly to the totalitarian demands of the State which the new religion has created."

A ban was put on the announced manifesto. To prevent its proclamation one hundred pastors in Berlin and neighborhood were put under "house arrest" and prohibited from taking services on Sunday. Among these was Dr. Niemöller, famous as a submarine commander during the war and now one of the opposition leaders, who was held in police quarters for several days. Throughout Germany about 700 are reported to have been placed under arrest. Some time previously seven clergymen, on account of alleged contumacy to Dr. Müller, had been taken to a concentration camp, their heads shaved and themselves put in prison garb.

According to the latest dispatches the Nazi department heads have decided that no quarter will be shown the church opposition hereafter. The radical church element under Dr. Rosenberg is for the present in the saddle. A further indication of this was the marked demonstration in honor of General Erich Ludendorff on his recent birthday. He has been urging Germany to abandon Christianity and take on a religion rooted in Teutonic tradition. The members of the Confessional opposition will likely be called upon to suffer for their faith. Dependent as the churches are on State taxes, the pastors can be starved out of their pulpits by the simple process of cutting down the rate, as has already been done in some areas. Then there are the grim concentration camps. Dark days lie ahead in Germany for evangelical Christians and all proponents of religious liberty.

## NATIONALIZATION OF BANKS

In Great Britain the Labor Party's policy for the nationalization of the banks has been "whittled down to almost vanishing point." That political organization has found that its original proposals aroused alarm throughout the country among millions of depositors who came to the conclusion that their money would be used under nationalization for political projects. Now depositors are being assured that nothing will be done to endanger their balances and that there would be no disturbance of the staffs of banks under nationalization. In fact, the Laborites go so far as to say that there would be no interference from a Government of which they were in control, save "gentle hints" regarding the general principles that ought to influence bank managers and directors.

Mr. Beaumont Pease, Chairman of Lloyd's Bank, asks why there has been such a fuss made over nationalization if this is what is meant. He wants to know why the Socialists have never lost an opportunity of attacking the banks and have announced again and again that their methods are "grasping, dictatorial, unsympathetic, unscrupulous and their workings so mysterious that though it was in their power to restore prosperity to the country they resolutely refused to do so." It appears that the Labor Party is executing a volte face in its attitude towards the banks. The political policy in respect to them as at first announced was purely predatory. This aroused resentment throughout the country. Now the Laborites, envisioning the loss of votes in a whole-sale way, have toned down their banking demands. What principles govern politics where there can be such a reversion in policy?

## FASHIONABLE CRAZES

Fashions are always changing, but that does not necessarily mean that there is always something new. The pursuit of beauty today bears an analogy in its methods to the same pursuit in the eighteenth century. The passions of the past are always being reproduced. Today as in the eighteenth century those that absorb the feminine mind are make-up and cosmetics, exaggerated hair-dressing and attenuated slenderness. The greatest of these passions is cosmetics; and yet in this particular even the "brightest" of young things is pale beside her great-great-grandmother. Now, however, to the promotion of trade, the time is spent in the beauty parlor that used to be spent at the dressing table at home. In the eighteenth century the craze for beautification was not confined to women. During the Seven Years War a common advertisement was "campaign boxes" for officers, fitted with eau-de-luce, rouge, perfumed pomatum, powder-puffs, lip salve and ivory eyebrow/combs.

It was in 1787 that beauty began to seek to express itself through exaggerated hair-dressing. Fashionable crazes, therefore, are not new, but what is not generally known is the influence they have had on art and commerce. This was the subject of an address recently by Mrs. Herbert Richardson before the Royal Society of Arts in London. She said that it was consistent with the century's amazing inconsistencies that so much of its time should be devoted to crazes entirely

gay and frivolous, yet each of which had its reaction on art and commerce, and stimulated trade. In looking back on a record of fashionable crazes Mrs. Richardson says one is looking back on an extraordinary artistic and commercial activity, wrought wood and built-up stone, in silver, enamel, glass, porcelain, textiles and in endless other media are among the loveliest and most treasured possessions today."

## U. S. SILVER POLICY

The latest Rooseveltian policy of reducing the seigniorage charges on silver and thus raising the yield to the producer is an attempt to raise the prices of commodities, and, of course, an inflationist policy. What is being done is being done in the name of stabilizing the price of silver. That was a policy adopted in 1934 in the United States when the Silver Purchase Act decreed that the proportion of silver to gold in the monetary stocks of the country should be increased until it amounted to one-fourth. The Treasury now has \$8,607,041,288 in gold values and 1,104,500,000 ounces of silver. More than half of the latter increased holdings, over 500,000,000 ounces since May, 1934, was acquired by purchases in the open market of the world through the medium of the \$200,000,000 Stabilization Fund. To carry out the purposes of the 1934 policy 1,000,000,000 ounces more silver must be acquired, or not quite that amount since the price of silver is progressively being increased. The goal set for that price is \$1.29 an ounce. One repercussion of what is happening is that Chinese trade with the United States is being definitely harmed.

Women live longer than men, even in these times when there is greater sex equality than ever before. The report on the British Census of 1931 shows that four years ago there were 156 persons in England and Wales who were 100 years of age or over, and of these 129 were women and 27 males. Between the ages of 95 and 99 there were 2,278 persons (465 men and 1,713 women). No one seems able to explain why women see more of life than men.

## THE TWO LIGHTS

"When I'm a man" is the poetry of youth. "When I was young" is the poetry of old age.

"When I'm a man," the strapping cries, "And strive the coming years to scan,—" "Ah then I shall be strong and wise, When I'm a man!"

"When I was young," the old man sighs, "Bravely the lark and linnets sung Their carol under sunny skies, When I was young!"

"When I'm a man I shall be free To guard the right, the truth uphold." "When I was young I bent no knee To power of gold."

"Then shall I satisfy my soul, With yonder prize, when I'm a man." "Too late I found how vain the goal To which I ran."

"When I'm a man these idle toys Aside forever shall be flung." "There was no poison in my joys When I was young."

The boy's bright dream is all before him. The man's romance lies far behind. Had we the present and no more, Fate were unkind.

But, brother, tolling in the night, Still count yourself not all unblest If in the east there gleams a light, Or in the west.

—Blackwood's Magazine.

## WITHIN THESE WALLS

She moves throughout the house, and to her eye It holds but beauty; yet a stranger there Had deemed the things were shabby; rooms too bare! Whence comes the sense of peace as evening falls? It is the love that lives within these walls.

—May Austin Low.

When emulation leads us to strive for self-elevation by merit alone, and not by heilting another, then it is one of the grandest possible incentives to action.

—Dr. Johnson.

Base envy withers at another's joy, And hates that excellence it cannot reach.

—James Thomson.

## Note and Comment

C. R. R. D.

Time will run, and fetch the age of gold. —Milton.

Methodist I saw a thousand fearful wrecks: A thousand men that fishes gnaw'd upon: Wedges of stone, great anchors, heaps of bones, Shattered snuff-boxes, and shattered spoons, All scattered at the bottom of the sea. —Shakespeare.

We suppose misers, like giants (human and animal), have not disappeared from the face of the earth. Quite exciting stories used to be written about the giants of Cornwall. There used to be interesting stories written about misers, too. The stories about giants were read chiefly by boys. The stories about misers were read by grown-up people, and they had a large circulation, probably a larger circulation than stories about ghosts, for ghosts also have been withdrawn from the face of the earth. Nobody believes in their existence except very simple and extremely credulous people. We know a place where a ghost could be seen almost every dark night if one had the nerve to go out and look for it. No ghost can be called from the vasty deep there now.

Misers used to collect gold, hoard it and gloat over it. They never used it for any practical purpose. Their one pleasure of life was the act of gathering and hoarding and gloating—and handling when they thought nobody was looking. But if there are no longer any miserly individuals, there seem to be miserly nations. Readers of the newspapers will remember that a year or two ago France was charged with being so acquisitive that she had collected and hoarded nearly all the visible supply of gold in the world and was accused of upsetting the balance of trade in the world. The yellow dress was then supposed to be essential for the transaction of the business of the individual and for the promotion of international trade. But the possession of great stores of gold did not prevent France from feeling the effects of the general depression and facing a financial and business crisis.

France has released the gold, and is still on the gold standard (what-ever that may be). Great Britain did not collect and hoard gold, is off the gold standard, and is doing more business than any other power in the world. Notwithstanding the experience of France and of Great Britain, there are still theorists who assume and are acting upon the assumption that gold is not only wealth, but a necessary implement for the promotion of trade and business. We saw a statement in a reliable newspaper a few days ago to the effect that gold is flowing in a steady and growing stream from all parts of the world towards Washington. More than that; all the gold in possession of citizens of the United States was being conscripted and hoarded at Washington. And an arbitrary price has been set upon gold, although the metal has been withdrawn from circulation in the form of currency. But that is not all. An arbitrary price has been set upon silver, and it is being sought wherever it is for sale and collected and hoarded in the same way.

We are told that this peculiar process of political or professional business has been highly profitable to the national treasury. And there is no doubt that entries in the treasury books show that this is so. The books show that in the transactions Uncle Sam has made billions of dollars, but thus far the billions in profits have not assumed material form and applied to the purposes of reducing the national debt or reducing taxation. Yet it appears to be a fact that business has been stimulated and trade has improved. The United States is no longer a large producer of gold, but there are the "silver states," and the politicians of those states are exulting over the policies of the President and the professors.

More vital to the people of Canada, the tremendous increase in the price of both gold and silver and some of the base metals has stimulated the business of mining, now one of the most important industries of this country. From the point of national self-interest we must all hope that the experiment of the United States may prove profitable and assume the form of permanence; but the individual misers have vanished and other national misers have stopped hoarding. The collection of gold and silver by the United States cannot go on forever. There must come a time when it will be necessary for the collectors at Washington to reveal their purposes. The avowed purpose of the President is to re-

## WILL PUT TAX ON WINERIES

### Ontario Government Imposing Five Per Cent on Their Competitors

TORONTO, April 26 (CP).—Effective on June 1, the Ontario Government will collect a tax of 5 per cent on gross sales of all wineries operating in the province, it was learned today.

A conference between thirty-six wine manufacturers and Chairman E. G. Odette, of the Ontario Liquor Control Board, reached an agreement on the tax late this afternoon. On the same date as the tax goes into effect, containers in which Ontario wines are sold will be standardized.

The authority for taxing wines was granted in amendments to the Liquor Control Act, which were passed at the last session of the Legislature. Each wine manufacturer is allowed one retail outlet. It is the opinion of the liquor control board that these retail stores, wherever situated, are to some degree competitors with the Government stores, and as such, should be taxed.

## ONE-ACT PLAY IS GIVEN BY GROUP

### New Dramatic Club Holds Concert in Aid of Fairfield United Church Deficit Fund

An enjoyable concert and one-act play was given by the Fairfield Junior Dramatic Club in the school-room of the Fairfield United Church last night in aid of the church's deficit fund.

"The Little Gardeners," a play written by Miss Eugenie Perry, was produced by J. Barlow, and has been entered in the British Columbia Drama Festival. It was a timely play, as its title denotes, this being the season for gardening. The players were: Shirley Coates, Barbara Bamford, Betty Doodson, Junara Arthur, Viola Arthur, Fred Green, Joan Duncan, June Coates, Mabel Sangster, Doreen Beare and Dorothy Menzies.

Other artists who contributed to the programme were: Elynth Anderson, Betty Doodson, Mabel Sangster, Frances Rigby, June Coates, Nancy Kyle, Dorothy Anderson, Joan Duncan, and a girls' choir.

Miss Connie Barlow was the accompanist. Mrs. Barlow assisted in the production of the play.

## Second Annual Dance at Golf Club Is Delightful

The second annual ball of the Victoria Golf Club, held last evening, was an outstanding success and the dancers, numbering about 175, were enthusiastic in their appreciation of the pleasure of the evening and of the delightful arrangements which had been made by the committee.

The hall and dining-room of the clubhouse had been cleared for dancing and great bowls of greenery and daffodils were used in decoration of the mantelpieces, while in the ladies' drawing-room, which was used for sitting-out, there were lovely spring flowers in shades of yellow, cream and deep rose, which blended most artistically with the coloring of the chintzes.

Supper was served in buffet style and dancing continued until 1:30 a.m.

**GIRLS' COUNCIL**  
The Girls' Council met on Wednesday afternoon at 2:30 o'clock at the Y.W.C.A. The meeting took the form of an outdoor gathering, and the girls hiked to the Fraser Street Beach in Esquimalt, where a beach fire was built, around which the girls ate supper.

The president, Audrey Nixon, read a letter from Miss Anne Fountain,

## School Pupils to Give Concert Tuesday

—Photograph by Gibson.

Above are shown some of the pupils of Tolmie School, who will take part in a school concert next Tuesday, at 8 p.m., in the Mount View High School auditorium. The school's rhythmic orchestra will be featured. The programme includes instrumental, vocal and choral selections, dancing, novelty numbers and specialty turns by primary grade students. Well known local artists will assist. Those in the picture, from left to right, back row: Patricia Giles, Ethel Higgins, Dorothy Graham, Mona Higgins and Roberta Ray; centre row, Jean Ray, Jean Graham and Emily Kirchin; front row, Betty Dempsey, Marguerite Hancock and Sadie Burton.

thanking the girls for the flowers they sent at Easter. Marion Kerr gave an account of the Leaders' Council banquet, at which the Girls' Council executive were guests. A jolly sing-song was enjoyed under the direction of Mrs. Maude Hammond. Mrs. Hammond, Jean Hyslop, Nellie Cameron and Audrey Nixon gave their impressions of the value and purpose of camp life and their personal experiences.

Miss Clara Maxwell, of Vancouver, chairman of the programme committee of the Girls' Work Board, spoke to the girls regarding camp ideals and camp purposes. She then officially presented the pictures which were won by Victoria groups in the recent finance campaign.

Miss Minnie Beveridge, sponsor of the council, closed the meeting with a sunset vesper service, taking as her theme, "God in Nature."

**MISS THORNLEY HONORED**  
A representative gathering of C.G.I.T. leaders and others interested in the work met at the home of Mrs. A. J. Daniels, in honor of Miss Ethel Thornley, of the V.O.N., who is leaving the city shortly. Miss Lillian Parfitt, president of the Leaders' Council, paid tribute to Miss Thornley on behalf of the C.G.I.T. leaders and girls of Victoria for her untiring efforts and her work in connection with the classes in home nursing and mothercraft for C.G.I.T. groups in Victoria during the past years.

Miss Parfitt presented Miss Thornley with a pair of pictures as a small token of the esteem and appreciation of the gathering. Miss Thornley has given herself unreservedly to the work of the C.G.I.T. movement during the past few years.

During the afternoon Miss Betty Jones contributed vocal solos, and Miss Maquinn Daniels, pianoforte selections. Tea was served by the hostess, and Mrs. George Guy poured. Assisting in serving were

Mrs. J. Fouracre, Mrs. Maude Hammond and Miss Joyce Dixon.

### VICTORIA WEST UNITED

The Victoria West United C.G.I.T. held its annual mother and daughter banquet on Wednesday evening. It was the sixteenth consecutive mother and daughter banquet to be held by this church. As far as can be ascertained, this accomplishment is a record for Vancouver Island, and there can be very few groups in British Columbia who have held this annual function so consistently.

Mrs. W. F. Perry presided and welcomed the guests. The sing-song was led by the junior leader, Miss Frances Jenkins, accompanied by Miss A. Anderson. Greetings were brought from the church by Rev. W. R. Brown, from the Sunday school by the superintendent, Mr. Gordon Mitchell, from the Victoria C.G.I.T. Leaders' Council by the president, Miss Lillian Parfitt, and from the Tuxis boys by Jimmie Robinson. Mrs. A. J. Daniels spoke very briefly on the missionary programme of the C.G.I.T. movement and brought greetings from the Presbyterians.

The toast to the mothers was proposed in a delightful manner by Miss Evelyn Wright, and replied to by Mrs. C. Pullen. In responding to the toast the girls joined in the singing of "Mother." The honor of having the most effectively decorated table was awarded to the King's Group, led by Miss Ellis Waller. The presentation of the award was made by Mrs. George Guy. A vocal solo, "Farewell," was rendered by Mr. George Guy.

Miss Gladys Beall was the guest speaker and her address was enjoyed by all present. The evening was brought to a close by the C.G.I.T. groups portraying the Easter message in a pageant, "Life Triumphant," at the close of which Rev. W. R. Brown pronounced the benediction.

**MISS BLACKLEY**  
It was with much regret that the girls and leaders in C.G.I.T. learned that Miss Blackley, general secretary of the Y.W.C.A., was to leave the city to take charge of the Vancouver branch. In the comparatively short time that she has been in Victoria, Miss Blackley has become the friend of all those in connection with C.G.I.T. by helping in so many ways and treating all departments so considerately. The best wishes of the whole movement go with her to her new work.

### Y.P.S. News

**VICTORIA WEST**  
The regular meeting of the Victoria West United Y.P.S. was held recently. A short devotional study, led by Mr. Milley, closed with a hymn. The business period then followed. The main interest of the evening was a debate, the subject being: "Resolved, that shows are more educational than books." Rev. R. Brown acted as judge and gave a short talk on "Debating." The decision was in favor of the negative, which was upheld by Jack Price and Mr. Milley. Those taking the affirmative were Violet Medley and Verna Moore.

### Anglican Young People

**ST. MARY'S**  
St. Mary's A.Y.P.A. held a night club premiere on Wednesday evening, and about fifty members and friends were present. A popular orchestra supplied the music, and other entertainers were Albert Harman, dances; Ernie Fullerton and Jim Haggard, piano-accompanied duet, and Miss Irma Falk, recitations. The branch plans to hold a radio evening next Wednesday.

### GUEST TEA

The Past Matrons and Patrons Association, Order of the Eastern Star, will hold a guest tea in the Shrine Temple on Tuesday from 3 to 5 p.m. A musical programme has been arranged.

## Soroptimists Undertake to Finance Home

At the April meeting of the Greater Victoria Soroptimist Club, the by-laws were amended to provide for a "Soroptimist Auxiliary." This addition to the by-laws was thought to be necessary in order that the club might not lose touch with members who have retired from business since its inception, and who may not become "sustaining" members due to the fact that the club is not yet four years old.

The club's local welfare objective has now been adopted and takes the form of assistance in the maintenance of a clearing station for the Children's Aid Society or sub-subsidized foster home. The children will be sent to this home as the first step before being placed in the various foster homes to which they are finally allocated.

It is necessary in many cases that they should receive medical and other attention under the supervision of the Children's Aid Society nurse before this is done, and the receiving station or clearing station will take care of this work. Three rooms will be furnished by the club and a set sum per month set aside towards the maintenance of the home.

**TO ARRANGE FLOAT**  
In this connection, in order to bring the project to the notice of the public, it has been decided to enter a float in the May 24 procession.

The club is also co-operating with the Service Clubs' council, of which it is a member, in providing a weekly entertainment for the men in the relief camp in the district. They have also donated a silver cup to the Victoria Musical Festival, to be competed for by the Victoria Public School choir.

All these activities entail the raising of a considerable sum of money, and the ways and means committee is busy attending to that important part of the programme. This year the executive committee is functioning as the ways and means committee, and the president has asked each director to be responsible for convening one money-making activity during the year.

**NEW CLUBROOMS**  
New and more spacious clubrooms have been taken, including a kitchen as well as clubroom. From now on the monthly club dinners and socials will be held there. Members are also able to use the clubroom in the lunch hour.

An invitation has been received from the Rotary Club to attend a dinner and dance in honor of Mr. P. B. Scurrah, district governor, on May 1, at the Empress Hotel, and several members are planning to be there.

### Clubs Societies

**Metropolitan W.M.S.**  
Metropolitan W.M.S. held its tenth anniversary tea at the home of Mrs. H. T. Knott, Linden Avenue, on Wednesday afternoon. The guests were received by the hostess, Mrs. W. E. Harper, president of the W.M.S. and Mrs. W. L. Smith, general convener. Doreen and Beverly Knott, granddaughters of the hostess, opened the door to the visitors. Mrs. J. J. Hutton was in charge of the tea room, which was arranged with Spring flowers, the tea table being centred with a silver basket filled with flowers. Mrs. Eber Crumney, Mrs. F. T. Cliff, Mrs. Arthur Lee and Mrs. G. D. Christie presided at the urns. Assisting in serving were Mrs. H. O. English, Mrs. J. T. Taylor, Mrs. S. H. Knott and Mrs. E. R. Whittington. Mrs. A. Read and Mrs. W. H. Ozard were in receipt of customs, and Mrs. G. A. Richardson and Mrs. A. H. Adams were in charge of refreshments. Solos were sung by Mrs. W. S. Moore and Miss Isabelle Pike, and piano solos were given by Miss Catherine Craig. Mrs. H. O. English thanked Mrs. Knott for her hospitality.

### Navy League W.A.

It was announced at the monthly meeting of the Navy League W.A. that the sum of \$25.15 was realized from the St. George's Day tea. Mrs. Sidney Wood, the president, was in the chair and sixteen members were present. Mrs. Gerrard Mason, Mrs. Norman and Mrs. P. Elliott were welcomed as new members. Business centred around the contest for the dinghy which, through the courtesy of Feden Bros., is on display in their Douglas Street window. Members not present at yesterday's meeting are asked to communicate with Mrs. Wood by telephoning her at E2170.

### W.A. to Pro Patria

The Women's Auxiliary to Pro Patria Branch, Canadian Legion, met recently, the president, Mrs. J. Ricketts in the chair. Reports of various committees and a report of the Easter bazaar showed a profit for auxiliary funds. It was decided to hold the postponed birthday tea on Wednesday, May 8, from 2:30 to 6 o'clock, the convener to be Mrs. J. Ricketts. Mrs. J. Berry was named chairman of the ways and means committee, and Mrs. Gornall and Mrs. Sparks were named visitors for the month. During the evening, the ticket for the permanent wave was won by Mrs. Gramrose, Burdett Avenue.

### Native Daughters of B.C.

The monthly social evening of the Native Daughters of B.C., Post No. 3, was held on Wednesday evening in the Knights of Pythias Hall, Broad Street. Dalziel, Miss Molly Turner and Miss Margaret Andrews.

**THE WORLD** looks pretty rosy to this little lady. She gets Castoria for a laxative. And she loves it! It is one laxative she takes willingly!

It is safe for delicately-balanced young systems. It will never, never cause gripping pain. It clears away waste matter thoroughly but very gently. And it is not habit-forming.

Whenever your youngster needs a laxative—from babyhood to 11 years old—turn to Castoria. Look for the name Castoria. And save money—buy the family-size bottle.

And that's very important! For if a youngster hates the taste of a laxative and struggles against taking it, her nerves are upset by the struggle. And her stomach, rebelling against the flavor, may be upset also!

So pleasant taste is one of the important reasons why Castoria is the right laxative for children.

Here's another: Like the carefully chosen food you

## QUERIES COVER VARIED TOPICS

### Dr. Davies Will Discuss C.C.F. and Explain Several Bible Texts

Dr. Clem Davies, in his Sunday night service, will answer the following:

"What do you think of the respective criticism of Huey Long, Father Coughlin and Dr. Townsend?"

"How can Mayor McGeer consistently read the Riot Act to a group of disorderly relief campers, when he himself has publicly stated that if the sheriff were placed in charge of Vancouver, he would throw him in the sea?"

"What is the 'inside story' of the strike rioting at Corbin, B.C.?"

"Is it true that the C.C.F. is sweeping Vancouver Island and that there are some surprises in store for the old-line parties at the Federal general election?"

"Is it correct that in the early dawn of history angels married mortal women; and if so, what was the result of this union?"

"Will Dr. Davies say if he approves of the vivisection of animals in the effort to probe the mysteries of life? Is it right to do evil that good may come?"

"What is the meaning of the term in the Bible of '666' and what is its significance these days?"

"Will you explain the meaning of John xviii, 36, 'My Kingdom Is Not Of This World'?"

"What do you think of Dr. Weir's proposed health insurance plan?"

Dr. Davies will speak at the morning service on the theme "Great Occult Secrets," a continuation of the subject introduced just before Easter.

At the night service specially prepared hymns will be shown on the screen illustrated in color, each verse being supported by a painting in color of the artistic pictures of the old masters.

Dr. Davies wishes to tender his sincere regrets to the hundreds who were unable to gain admission last Sunday, many of whom kindly left their offering before going away.

Among the citations which comprise the lesson-sermon is the following from the Bible: "And I heard a voice from heaven saying unto me, Write, Blessed are the dead which die in the Lord from henceforth: Yea, said the Spirit, that they may rest from their labors; and their works do follow them" (Revelation xiv, 13).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health With Key to the Scriptures," by Mary Baker Eddy: "As death fineth mortal man, so shall he be after-death, until probation and growth shall effect the needed change."

Rev. E. F. Church Will Address Jubilee Nurses on "Battle for Life"

The baccalaureate service of the Royal Jubilee Hospital will be held in Metropolitan United Church on Sunday morning, when the pastor, Rev. E. F. Church, will preach an appropriate sermon on the subject, "The Battle for Life."

The choir, under the direction of Frank Tupman, will render special music for the occasion, when the anthem will be "Great and Marvelous" (Haydn), and two members of the hospital staff, Miss Edna Rosier and Miss Ethel Stubbards, will sing a duet.

"He Could Take It!" will be the theme of Rev. J. Harwood A. Warr at the evening service. Miss Edna Cole will give a dramatic reading of "A World Famous Oration." The choir will sing as an anthem, "How Lovely Are Thy Dwellings" (Brahms), and Mrs. A. W. Stokes will sing "Jerusalem, Thou That Killst the Prophets" (Mendelssohn).

At 9 o'clock, by request, the young people will present their Easter worship service in the schoolroom under the theme, "Repentance."

### BROTHERHOOD OF MAN TO BE TOPIC

The Spiritual Science Temple will meet in the central auditorium, 1406 Douglas Street, tomorrow, when "Karma" will conduct the services. At 2:30 o'clock a service will be held, with messages from flowers. At 7:30 the subject will be "The Kingdom of Heaven," to be followed by messages from flowers. Following the service, there will be a discussion on the social conditions of the world and whether it is possible to establish the brotherhood of man.

### TO TAKE PULPIT AGAIN TOMORROW

Rev. H. P. S. Luttrell Will Preach at St. Andrew's on Themes Suggested by Crucifixion

At St. Andrew's Presbyterian Church tomorrow, the minister, Rev. H. P. S. Luttrell, will occupy the pulpit at both services. He will preach on themes suggested by incidents preceding the crucifixion of Christ.

In the morning our Lord's prayer for His crucifiers, Luke xxiii, 34, "Father, Forgive Them!" will be the basis for a discussion of the problem of the forgiveness of sins—that problem which Chalmers described as "a problem fit for a God." In the evening, the subject will be "Tears of Penitence" (Mark xiv, 72), the moral breakdown of Peter, who, when he thought thereon, wept.

In the morning, Mrs. Frank Griffin will sing "Perfect Prayer" (Stenson). The choir will sing Stainer's anthem, "Leave Us Not, Neither Forsake Us." In the evening Miss Catherine Denison will sing "Beside Still Waters" (Bernard Hamblen). The evening anthem will be "Hark, Hark My Soul" (Fletcher).

The Lord Mayor of Liverpool is reported to have said recently that he had been almost overwhelmed by requests to visit churches, and was booked for every Sunday during his year of office with the exception of Easter Sunday and during his vacation in August.

## CHAPTER XXIV

After Samfari had left him, Stone sat staring at the note the youth had left with him. This, surely, must be a clue. Whoever was putting over the korowaa fakery must be somebody in the house.

Stone was still keeping an open mind, for though he had several possible suspects, he was waiting for some overt act that should direct his attention more definitely to one individual. Or two, for Fleming Stone was beginning to think that the criminal had a partner, though perhaps a silent one. At any rate, he welcomed this new note, for it must mean something.

Inspector Cox was so convinced that Vera was an accomplice in the crime that he was for arresting her and dragging from her the name of her principal.

And, too, Stone had half a notion that Vera was the writer of those notes signed B that were typed with a slight difference from the others.

He scanned the Korowaa note closely. Beyond all doubt it was typed by the same hands that had done those others. The touch was harder than Barry's light touch, and as a consequence the capital letters and some of the small ones cut through the paper, making a roughness on the back that was distinctly noticeable if one felt it carefully.

It was not likely that this was Vera's work. Her every gesture, every mannerism was of a gentle, graceful nature, and she could not be imagined banging on a typewriter.

No, a man's work, Stone felt sure. Suddenly, by some strange revelation of feeling, he suspected Samfari. He had said the note had been placed in his room, in spite of locked doors and windows. He had no one to corroborate his story of the voice in the night—Was there any? True, these other two notes, written before Samfari came to the house. But if the young Oriental was a real criminal, he would, Stone felt sure, be a careful and a clever one.

As he sat puzzling over these things, Inspector Cox was announced.

"Come in," said Stone cordially. "I've come to arrest Vera Van Zandt," said Cox.

"On what evidence? Because she's a beautiful woman, and more or less of a vamp?"

"No, sir. Because she is responsible for the death of her husband, and Barry's death seems to be the secondary murder. I mean Van Zandt was the principal victim."

"Oh, somebody went to the yacht to murder Van Zandt, not thinking Barry would be there?"

"Yes, not thinking Barry would be around. Thought he would be looking after his motor, as he was. But he discovered what was going on, and poking his head up through the hatchway, received that awful blow that killed him."

"And you're telling me Vera Van Zandt struck that blow?"

"Not personally, but by an accomplice, a hireling."

"I see. And what was her hireling's name and address. Was he willing to commit two cold-blooded murders at her request? How did he get away?"

"Don't be silly. You may be mighty glad to learn the answers to your thoughtless questions."

"Now, now, Cox, not thoughtless. Flippant, maybe, unanswerable, probably, but not thoughtless. Why, I've just been thinking deeply about the mysterious Vera. And I'd be mighty glad to have answers to them."

"And how about the mysterious Samfari?"

"Unfortunately rather than mysterious. That young man is in real danger. Do you think Vera or her doughty accomplice could do him in?"

"I think her accomplice could—yes."

"Anybody could do anybody in, but in this house they'd be pretty sure of being discovered. No place in it seems to be empty. You think you're entirely alone, and look up to see a lackey of some sort hovering about. On his legitimate business, of course, his routine work, but startling sometimes. I wish you'd tell me who is this accomplice. We agreed, you know."

"Yes, I know we agreed, but you must admit you've not told me much."

"I've told you all I've learned. Inspector Stone spoke seriously. 'I'm hoping to unearth something big very soon, but it hasn't come to the surface yet. There's the gong. If you care to stay to luncheon, I'll invite you.'"

"No, I've had my lunch. But I'll hang round and do a little clearing up while they're all in the dining-room."

Stone left the Inspector in the parlor, which was by now transformed into an office. He found Vera already at the table, and beside her sat Rod Campion. Stone had a quick thought of Campion as Vera's accomplice, but it seemed unlikely. However, he decided to ask him about the bit of mechanism.

"So, you're bringing the Mad Anthony home piece, Campion, are you?"

"Well, I've brought over one piece of it."

"What for?"

week, Dan. I've stayed much longer than I meant to do.

"She looked at him, fully expecting a renewed invitation. But Dan gave her a quick nod, and said, somewhat perfunctorily, 'Oh, stay as long as you like, Vera,' then turned his whole attention to the returning Kiah."

"Didn't you find him?" he asked impatiently. "He must be in the house. Have you no report?"

"Mr. Samfari is not in his rooms at all," Kiah reported. "Well, you see, sir, he went out, and Mrs. Ming thinks he may be out still."

"He isn't," Stone declared. "Because he went out with me, and came back with me. Of course, he may have gone out again."

"No, he didn't go out again," Dan said positively. "I should have seen him. I was on the porch waiting for him to come down to luncheon. He didn't come."

"I think the matter should be investigated, Mr. Wayne," Stone said. "I think we cannot be too watchful of Samfari's doings just now. Excuse me, please, I will look for him."

Stone left the room, and Kiah gave him a master another bit of information.

"Inspector Cox is upstairs," he said. "He is searching the rooms again."

"Oh, my heavens!" Vera gave a little shriek. "He has no right to do that."

"Come back, Vera," Pat called after her as she flew from the room. She heard him, but paid no heed and ran on. But she returned as quickly as she had left them, her eyes staring and her fingers twisting nervously.

"Oh!" she cried out, as she sank into a chair, "Samfari's gone! That thing took him!"

"Hush, Vera," and Pat went to her. "What do you mean? Don't talk at random."

"No," and Vera smiled at him. "Your brother and Ming ought to find him, then. They must know all the rooms. You mean Sam was wandering about and got lost?"

"That might be," said Jane, looking anxious. "Is there any cupboard or wardrobe that shuts with a spring door?"

"No," Pat said. "But if Samfari were caught in a mistletoe chest, or an old dark cubby-hole, he could yell if he couldn't get out by himself. And there are plenty of such places in the attics on the higher floors."

"Then they ought to be searched!" cried Jane, and she ran up the stairs. Steve Holt ran after his daughter, and Vera and Pat followed, but Rod Campion went home.

The searchers were grouped in the library of Barry's suite, now given over to Samfari. Inspector Cox was looking pretty well disgusted with the whole affair. He didn't like these cases that dragged in heathen gods and Mongolian people, or whatever that Samphire youth was.

From the study one could see through the bedroom to the well-furnished dressing-room, and Cox had already assured himself these rooms were empty of humanity. Yet already their character, their atmosphere had changed in some subtle way. There was a breath of Oriental fragrance here and there noticeable as one passed an open vial or flask on a table or a partially-filled potpourri jar or rare old lacquer, holding dried and aromatic leaves.

One or two mandarin robes and heavily embroidered slippers betokened a hoped-for leisure, and only Samfari himself was needed as evidence that the study had gone Oriental.

READY TO SPEND

In the hope of being awarded the 1940 Olympic Games for Tokyo, Japan is prepared to spend \$1,400,000 on a huge athletic plant on a picturesque island in Tokyo Bay.

Present plans are to make it the finest in the world. Since Mussolini has valued Italy's claims, Japan is virtually certain to get the 1940 games.

### In the Hanover Reign—1702-1810

ONLY Courage glows with a steadfast purpose which cannot be denied. Henry Kelsey, eighteen years old, set out from York Factory, crossed the Assiniboine and opened a vast territory for the Company. King George I occupied the throne. All England had found a new road to wealth. Shares of the South Sea Company of £100 value rose to £550.

Hudson's Bay Company is steadily expanding westward and northward. "Value for Value" has proved its power in trade for a hundred years. £1000 is paid in London for South Sea shares. Within a month, the shares are valueless.

George II succeeds his father. The torch of war flares over New France. Fort Prince of Wales is rebuilt of stone at the mouth of the Churchill River. Canada is reluctantly ceded to Great Britain. 1760 begins the long reign of George III. In 1776 the Thirteen Colonies make their Declaration of Independence.

La Perouse brings war to the Company's posts in Hudson Bay. Forts Prince of Wales, Churchill, Nelson and Moose Factory see their painful rebuilding swept away in fire. Build and rebuild. Ultimately Courage always has its way.

The Earl of Selkirk puts forward a scheme for colonizing the Red River country. Negotiations commence in London. King George III merges into the twilight. A new age, the Regency, is at hand.

## Teams on Edge for Tonight's Basketball Game in Canadian Title Series

### Both Aggregations Confident of Win In Third Fixture

#### Squads Keyed to High Pitch on Eve of Important Tussle at Willows—Four Members of Ribbons Nursing Slight Injuries—Vancouver Girls Booked for Opener

CHUCK CHAPMAN, Vancouver Ribbons forward, is one of the players who are expected to play in the third game of the Canadian title series.

With both teams on edge, anxious to take the third game and get the jump on the other, the fans are looking forward to one of the most exciting and closely-fought fixtures seen here for a long time, when Blue Ribbons and Assumption College march on the court at the Willows tonight, and battle it out in the Canadian men's senior basketball series. The series is all squared up, Victoria having walked away with the opening game Tuesday night, 47-22, and the Windsor-Lads—the second argument—Thursday, 44-21.

Only two points, a lone basket, separates the teams at the end of two games and, therefore, the gossip along the basketball front is varied concerning the third fixture. Who is going to win tonight's game? What do you think of the series now? Who do you pick now? These and several other questions flew fast and thick yesterday, and nobody seemed prepared to give a real direct answer.

Coach Father McGee has about the best answer to them all. "I wouldn't bet a nickel on the outcome, even if I had the chance," he declared. But at the same time a smile of confidence covered his pleasing countenance. One thing about the mentor of the visiting squad, he has all the confidence in the world that the lads will return to their studies with the Canadian crown.

However, the same applies to Manager J. A. Barnwell, of the Ribbons. He figures the Ribbons will hit their old-time stride again this evening and take the Collegians over the coals. Four members of the local squad were suffering from slight injuries yesterday, the result of the second game. Albert "Red" Martin was resting up, but was rapidly recovering from a blow in the groin, which he received early in the tussle right under the Assumption basket. Martin failed to show his stuff after this incident, as he was slowed up noticeably. He will be in there tonight, and it will take a good Assumption check to hold him. Chuck Chapman and Doug Peden, Ribbons' regular defence, were nursing bruised legs, while "Porky" Andrews was complaining about an old back injury, but was reported fit and ready for action last night.

"Watch the boys go tonight. We will win and then go to work and capture the Dominion title next week," stated Captain Chuck Chapman yesterday. He said the Ribbons would open, and that the boys had all the confidence of previous championship series. The Ribbons are noted for blowing up one game during an important series. Take the Varsity play-offs, the local team were badly trounced in the second game in Vancouver, while Windsor was finally beaten when Fred Bourne closed in fast on Watson's cross and scored with a terrific drive. The sailor net custodian never had a chance with the shot.

As the teams resumed after the breather, the sailors again took up the offensive and Ward, sailor centre forward, sent in a high shot, which Fleming turned over the bar. The Navy kept up the pressure for about ten minutes but could not drive the ball into the net.

Rangers netted their second goal, and the final tally of the match, after twenty minutes of play in this stanza. Carrying play to their opponents' end of the field, the eventual winners gave Munde many anxious moments, and while the sailor goalie was all tangled up with Anderson, Rangers' forward, after taking the ball off the upright, Bourne scored with a wicked drive in the corner of the net.

Navy fought gamely in the final stages to try and avert a whitewash, but a stubborn defence and Fleming's Rangers' goalie, thwarted their every scoring attempt.

Ralph Alcock refereed and the teams were: Outer Wharf Rangers—Fleming, Gelling, White, Mercer, Belford, and two substitutes.

Eight teams saw action in four midweek fixtures played in the Greater Victoria Horseshoe Pitching League. Behind the steady shoe tossing arm of Jimmie Keating who scored nineteen ringers, Rennie & Taylor defeated the Canadian Scottish, 202 to 87. L. Cockerill was high man in the Pioneer "B's" 201 to 111 victory over the Excelsiors, while George Ledingham, of the Excelsiors, was high man for his team with twelve ringers.

The Jackson "A" team vanquished the Naval Veterans "B," 201 to 71, with the honors for high score going to Bill Jackson with nineteen ringers. The league-leading McLeod's took a close contest from the Strathconas, 203 to 167. Harry Mitchell led McLeod's with eleven ringers and Dave Pratt garnered twelve perfects for the losers.

Due to the inability to field a team the Excelsiors conceded last week's game to Jackson "B," and this week's fixture to Victoria West. Today the Naval Veterans "A" will meet the Knights of Pythias.

### RANGERS BEAT SAILORS, 2-0 IN CUP MATCH

#### Freddie Bourne Nets Both Goals in Rennie & Taylor Soccer Fixture

Two goals, one in each half, by Freddie Bourne, speedy left winger, gave the Outer Wharf Rangers a 2-0 victory over the Navy yesterday evening at the Heywood Avenue grounds in a first-round Rennie & Taylor Cup fixture. The win advanced the lads from the James Bay district into the semi-final round against Spencers.

Navy had the better of the opening exchanges, but their forwards were not capable of finishing their offensive plays, and as a consequence these early scoring chances were wasted.

#### BOURNE SCORES

Rangers came to life about halfway through the initial canto and tested Munde, Navy goalie, with a number of well-directed shots, most of them from long range. After making many fine saves, Munde was finally beaten when Fred Bourne closed in fast on Watson's cross and scored with a terrific drive. The sailor net custodian never had a chance with the shot.

As the teams resumed after the breather, the sailors again took up the offensive and Ward, sailor centre forward, sent in a high shot, which Fleming turned over the bar. The Navy kept up the pressure for about ten minutes but could not drive the ball into the net.

#### SECOND MARKER

Rangers netted their second goal, and the final tally of the match, after twenty minutes of play in this stanza. Carrying play to their opponents' end of the field, the eventual winners gave Munde many anxious moments, and while the sailor goalie was all tangled up with Anderson, Rangers' forward, after taking the ball off the upright, Bourne scored with a wicked drive in the corner of the net.

Navy fought gamely in the final stages to try and avert a whitewash, but a stubborn defence and Fleming's Rangers' goalie, thwarted their every scoring attempt.

Ralph Alcock refereed and the teams were: Outer Wharf Rangers—Fleming, Gelling, White, Mercer, Belford, and two substitutes.

### Are Seeking Canadian Cage Honors

The Collegians are all square with Victoria Blue Ribbons in their bid for the Canadian championship, which will be settled here early next week. Blue Ribbons won the first tussle of the series, 47-22, but Assumption came back strong to walk away with the second game, 44-21. Tonight the teams will clash in the third fixture. Back row, left to right, Bill "Moose" Rogin, centre; "Toots" Meretby, forward; Don Desjarlais, guard; Coach Father McGee; H. DeBord, guard; "Red" Nantais, guard; Glen Sherman, forward and guard. Front row, left to right, G. Galup, forward; Gordie "Scrubby" Aitchison, forward and captain; B. Harrison, guard; B. Byrne, guard.

### CROWDS POUR INTO LONDON TO WITNESS CLASSIC OF SEASON

#### 50,000 Fans Head for Wembley Stadium to Watch West Bromwich Albion and Sheffield Wednesday Battle It Out for Historic Trophy—Albion Line-Up Doubtful

LONDON, April 26 (CP).—By train, automobile and airplane soccer enthusiasts throughout the United Kingdom prepared tonight to visit London where the great football battle of the season, the English Cup final, will be played tomorrow at Wembley Stadium.

Birmingham and Sheffield, home cities of West Bromwich Albion and Sheffield Wednesday, the finalists, expected the greatest exodus, but each part of the country will send large quotas. Approximately 50,000 it is estimated, will be carried to the capital by the various railways which are running 149 special trains. London fans are expected to swell the crowd at the game to nearly 100,000.

#### EASIER ROAD

There is little to choose between the two sides. In cup competition the Albion has had a slightly easier road than the Wednesday, disposing of two first league teams, two second and one third division squads. Sheffield encountered two premier elevens—one the formidable Arsenal—and three second division outfits. The Thistles ran up eighteen goals in the drive for the cup, seven

more than the Wednesday. Each team had three goals scored against it. On the other hand, the Sheffield team won through with direct victories, while the Albion were forced into a replay by Bolton Wanderers in the semi-finals.

But West Bromwich has one advantage, which in the end may turn the scales in its favor. If the Birmingham team is at full strength, the side will include nine players who were on the team that won the cup in 1911. The Wednesday has not reached the final since 1907, when Everton was defeated, 2-1.

#### AT FULL STRENGTH

The Wednesday will be at full strength, the team being made up of Brown, Nibloe, Callin, Sharp, Millership, Burrows, Hooper, Surtees, Palethorpe, Sterling and Rimmer. Injuries have made it doubtful which players will line up for West Bromwich. The probable team is Pearson, Shaw, Trenham, Murphy, W. Richardson, Edwards, Glidden, Carter, W. G. Richardson, Sandford and Boyes.

In the event that Edwards, Glidden and Carter are unfit, their places will be filled by Sankey, Gale and James, respectively.

### N.P.A.A.O. Meet Will Be Held at Elk Lake in July

#### Vancouver, April 26 (CP).—The annual regatta of the Northwest Pacific Association of Amateur Oarsmen will be held at Elk Lake, Vancouver Island, under the auspices of the James Bay Amateur Athletic Association, on Friday and Saturday, July 12 and 13. It was announced today by Stan Thomas, of the Vancouver Rowing Club.

Approximately 100 oarsmen are expected to compete with entries from Portland, Kelowna, Victoria, Brentwood and Vancouver and a possible entry from Shavonian Lake Athletic Association.

Eight-oared racing is to be officially included for the first time in the history of the event.

### WHITEHEAD IS LEADING GROUP

#### New Member of Cardinals Takes Over First Place in Big Six

(By the Associated Press)

One more newcomer slipped into the "Big six" yesterday as Burgess Whitehead, of the Cardinals, who hadn't been considered at first because he didn't play regularly, blossomed out as a full-fledged member of the regulars and leader of the sextette with a 456 average. He hit twice in five attempts against Pittsburgh. Joe Stripp dropped out while Jimmie Fox and Eric McNair suffered heavy losses as they failed to connect, but retained their places. Bill Werber and Johnny Moore did the day's best hitting, each getting two blows in four tries. Moore's pair were both homers.

### Badminton Dance Set for May 1 at Brentwood Hall

The Brentwood Badminton Club's annual wind-up dance will be held on Wednesday, May 1, at the Sports Hall, Brentwood. Dancing will be from 9 o'clock to 2 o'clock with a first-class orchestra playing the latest numbers.

The club has had the most successful season in history, winning many trophies, and its membership has steadily increased. The end of the season dance is very popular, and one of the outstanding events at Brentwood. The committee in charge has made arrangements to handle a bumper crowd.

Tickets can be obtained from the secretary or club members and early application should be made.

### Victoria West Will Travel to Nanaimo Sunday

Victoria West first division soccer eleven will journey to Nanaimo tomorrow to play the Up-Islanders in a benefit soccer match for Jimmie Tantrum, clever Nanaimo centre forward, who sustained a broken right leg in a match with the green-shirts here a couple of weeks ago.

The team will leave the C. & C. stand, Douglas Street, at 9 o'clock. All first and second division players are invited to make the trip.

### BYNG TROPHY IS AWARDED TO BOUCHER

#### Rangers' Star Gains Permanent Possession of Hockey Sportsmanship Cup

OTTAWA, April 26 (CP).—The Lady Byng Trophy, emblematic of sportsmanship in hockey and high ability to play the game, will rest permanently on the household mantel of Frank Boucher, centre ice star of the New York Rangers.

Hailed by Tom Clancy, father of "King" Clancy, of the Toronto Maple Leafs, as "the greatest hockey player of all time in his position," the stocky, dark-haired Boucher last night received the coveted trophy as his permanent possession.

#### PRESENTATION MADE

The presentation was made at a banquet of Ottawa sportsmen in honor of four other native sons who had played a prominent part in bringing the world's hockey championship to the Montreal Maroons—Manager Tommy Gorman, Alec Connell, Allan Shields and Stewart Evans.

Seven times its annual winner, Boucher acknowledged warmly the gracious act of Lady Byng which gave him the trophy. He expressed his appreciation to Walter Gholbo, sports editor of The Ottawa Journal, whose suggestion resulted in the kindly response of Lady Byng, who will replace the trophy with another.

### LAWSON LITTLE TO DEFEND GOLF TITLE

NEW YORK, April 26 (AP).—William Lawson Little, Jr., broad-shouldered Californian and first American to win the British amateur golf championship "on his first try," called for England tonight, "the first American ever to defend it."

Eight teams saw action in four midweek fixtures played in the Greater Victoria Horseshoe Pitching League.

Behind the steady shoe tossing arm of Jimmie Keating who scored nineteen ringers, Rennie & Taylor defeated the Canadian Scottish, 202 to 87. L. Cockerill was high man in the Pioneer "B's" 201 to 111 victory over the Excelsiors, while George Ledingham, of the Excelsiors, was high man for his team with twelve ringers.

The Jackson "A" team vanquished the Naval Veterans "B," 201 to 71, with the honors for high score going to Bill Jackson with nineteen ringers. The league-leading McLeod's took a close contest from the Strathconas, 203 to 167. Harry Mitchell led McLeod's with eleven ringers and Dave Pratt garnered twelve perfects for the losers.

Due to the inability to field a team the Excelsiors conceded last week's game to Jackson "B," and this week's fixture to Victoria West. Today the Naval Veterans "A" will meet the Knights of Pythias.

The Double Cross Bridge—Due to the interpretations of franchise grants of some twelve cities in the metropolitan areas of Northern Kentucky and Cincinnati, Ohio, to the Cincinnati, Newport & Covington Railway Co., there is a peculiar mix-up of fares charged passengers over the Suspension Bridge. It costs a patron only 5 cents to ride a trolley from Cincinnati to Covington, but when he wants to come back the fare is 10 cents. Oddities of this kind in the fare situation, which only a learned lawyer or judge can understand, apply on other branches of the system and are a source of great trouble. Any southbound passenger in Covington pays only 5 cents for a ride, but northbound the fare is 10 cents.

## LONDON ABLE TO SUPPORT TITLE CLASH

Englishmen Would Pay Top Prices to See Baer and Schmeling Meet

By GAYLE TALBOT  
LONDON, April 26 (AP).—There is no good reason to believe that Greater London, with an estimated population of more than 9,000,000, is not capable of absorbing a championship fight between Max Baer and Max Schmeling in August.

Walter Rothenburg, German promoter, has promised Baer about \$300,000 to defend his crown here, and presumably would have to hand Schmeling another \$100,000. To say that London doesn't have that kind of money to spend is eye-wash.

If one is to believe his eyes, there is more loose money floating around England's capital than has been in evidence in any other world capital since the years before 1929. Rothenburg, in outlining to the Associated Press his plans for the Baer-Schmeling bout, pointed out that he would have to sell out only 10,000 seats at \$40 each to put himself in the clear on his guarantee. The remainder of Wenibler's \$80,000 or \$90,000 seats he would price moderately, ranging down to \$1 for the distant section.

**BIG QUESTION**  
Will London buy \$40 chairs in quantity? One can only look at the record. They pay \$10 tops to see hockey games the average fan in Canada would not invest 50 cents to see, the calibre being far from first class.

For the privilege of sitting on hard pine boards for several hours on end and watching King George's Jubilee procession, May 6, many more than 10,000 persons have paid more than \$40 each. Prices for choice seats range up to twice that figure.

No, the \$40 seats won't scare them off. There is something in the make-up of England's men of means which impels them to have the best. The record gate for a fight in London is \$135,000, set more than twenty years ago by Georges Carpentier and Ted Lewis at Olympia, an outdoor arena. The fact and the figure, observers say, should not be taken too seriously.

**BAER WELL KNOWN**  
In the first place, England is getting in good shape financially. She is willing to spend her money for something that promises real entertainment. Baer is almost as well known here as in North America. Few real sportsmen would pass up an opportunity of witnessing a championship scrap.

Maybe that sounds like a rosy outlook. It does to Rothenburg, too.

LONDON, April 26 (CP).—Pneumonia caused the sudden death yesterday of one of the world's greatest stallions, Blandford, whose get set an all-time record for winnings on the English turf last season.  
Up to the end of last season, Blandford's stock won 201 races, with a value of \$202,000 (about \$90,000).  
Blandford sired the Derby winners Trigo, 1929; Blenheim, 1930, and Windsor Lad, 1934. He also sired the great unbeaten French four-year-old Brantome, who will campaign here this year.  
Foaled in 1919, by Synchron out of Blanche, Blandford was owned by R. C. Dawson.

## Fred Perry Back In Old Country

LONDON, April 26 (AP).—A world-weary Fred Perry returned to his homeland today swathed in a becoming air of mystery and exuding undying loyalty to the British Lawn Tennis Association from every pore.

"I am the only one who knows why I've turned down professional offers. I can't divulge those reasons. Nor can I disclose my plans until I talk with the Lawn Tennis Association tomorrow," Perry said.

"They have been very good to me and the only way I can give them anything in return is by my wholehearted support in their efforts to keep Great Britain on top of the tennis world."

## WILL COMPLETE HEARING TODAY

Continued from Page 1

During the afternoon session Police Court Clerk Oliver Elms testified that Alec Imhah, dismissed from the Vancouver police force after the 1928 investigation, had been re-employed during 1933 and Faulkner, who said he was a "look-out man" for Shue Moy, Chinese gambling house proprietor, swore that Imhah had worked for Shue during the summer of 1934. Shue is also charged with conspiracy but has not been apprehended.

**DETAILS IN WRITING**  
Elms testified that Imhah had been on the force payroll under the names of Saunders and Dougherty and had drawn between \$1,400 and \$1,500 during that time. He submitted a written statement giving details.  
Inspector Charles Tuley said that

In October last year he received information that the then mayor, the police chief and other public officials were drinking free liquor in a room in Moose Hall, Burrard Street, while bootlegging was going on in an adjoining room. He advised the dry squad to investigate, Tuley said, and later, after a conference attended by the chief, Deputy Chief W. Murdoch, and three inspectors, he was transferred to the "sticks."

## APOLOGIZED LATER

The month following, Tuley said, he apologized to the police commission for gossiping about the Moose Hall affair when members of the commission said it reflected on their wives. Names of another former police chief and an inspector who was dismissed in the investigation after the last civic elections were brought into the case today by Tuley.

The witness said he was transferred from one department to another by Chief Bigham because he refused to accept Sam Zien's invitation to join a corrupt ring. (Zien, named in the conspiracy charge but not apprehended, is alleged to have been a large slot machine operator.)

## NAMES NOMINEE

"They gave me four days to think it over," Tuley said. "They told me their nominee would get the job."

Asked who "their nominee was," Tuley replied: "James Ellice—ask him; he knows."

Inspector Ellice was dismissed shortly after Mayor G. G. McGeer took office.

Tuley declared that he had been slated for a transfer when Colonel C. E. Edgett became chief but that he told Edgett the whole story and was not transferred.

## FINANCE - COMMERCE - MARKETS

Stock and Bond  
Prices Steady  
At Wall Street

NEW YORK, April 26 (AP).—Stocks cheered about in an active market today, with final prices showing the results of substantial profit-taking.

Metal shares began the day well, as world silver prices again moved ahead to above 81 cents an ounce, but failure of the United States Treasury to advance its buying price to accord with the international level left most of the group's leaders only fractionally higher, and a few with losses. Silver King at 19-1/2 was an exception with a lift of 3-1/4 points.

Business was brisk, aggregating 1,521,720 shares.

Bethlehem Steel was 3-4 of a point lower at 26-1/2, a decline about in line with other leaders.

Allied Chemical at 145, Westinghouse at 43, American Telephone at 113, Santa Fe at 42-3/4, and Union Pacific at 92-1/2, were up major fractions to 2 points. Others off fractions to 1 point included Consolidated Gas at 23, American Can at 122-3/4 and General Motors at 30-1/2.

An advance of more than 1 point in Canadian Industrial Alcohol "A" was the principal change in the Canadian list.

A slight setback in industrial issues marred the corporate bond market's calm, but rails and utilities reassured their right to leadership and more than offset the defection. Many rail leaders scored a gain of a point or so without difficulty.

A 31-2 point drop in International Paper 5's to 67-1/2 was the central feature of the industrial group.

He said the vein was showing a width of eleven feet, with average values across of \$15 to \$17 a ton in gold and silver.

At their meeting here on Thursday, directors of the Dunwell Mines received a \$5,000 return from their recent shipment of 228 tons of ore from the Dunwell's Ben All claim workings to Anxos smelter. Because of the rise in the price of silver, the directors ordered the shipment of 3,000 tons of high silver content ore which have for some time been lying broken down in the Dunwell stopes.

**WEALTH OF GOLCONDA**

"The United States is the Golconda of the Western Hemisphere," wrote an editor recently, urging his readers to cheer up.

To the fancier of words, the interest in the sentence just quoted lies in the allusion to the old world to find a fitting characterization of the new.

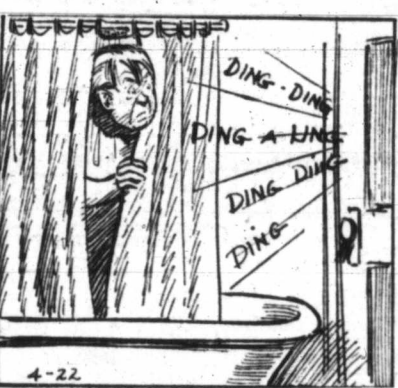

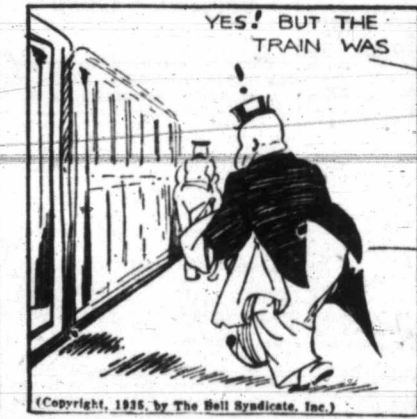

Golconda was one of the most ancient cities of India. It is the former name for the State of Hy-

derabad, famed not only for the plethoric wealth of its diamonds, but because it was the treasury of the Nizam—the native sovereigns whose riches were fabulously great. The word soon came to be used figuratively also as in this line from a book on Browning:

"To the lover of poetry, 'Paracelus' will always be a Golconda."
